# Animals and Pets

As a nation of animal lovers, we are often asked to include much-loved pets or favourite animals and birds in our designs. Whether your loved one enjoyed a walk on the wild side, enjoyed birdwatching or horse-racing, or had a special pet, we can incorporate that into our designs.

Kathy,

Thanks for your help with this.

We were overjoyed with the coffin,  
it was absolutely wonderful.

It was a great hit at his funeral, and  
many people asked for your details.

Regards

“ I just wanted to write to say how pleased we were with the Mary's Garden coffin we had for our mum. It was so beautiful and made a difficult day so much easier. It made such a difference to see a beautiful coffin at the front of the church, rather than just a big wooden box - it actually made me smile and was very uplifting. Our mum's name was Mary, so as soon as we saw that it was called Mary's Garden it was as if it was meant to be.

For many, a walk in the countryside or a special view brings back lots of lovely memories, and that's why families often choose to incorporate these into their design. Our team of designers are experts at finding just the right images to help recall happy days.

“ My mother died and I was arranging her funeral, it was important to me the coffin was beautiful as she wouldn't want wreaths or flowers. I found your website and finally chose the Bluebell Blanket for her to leave us in. You have made the grieving after the loss more bearable knowing mum was wrapped in bluebells when she made her final journey.

# Creating a Bespoke Coffin

## How to change a design

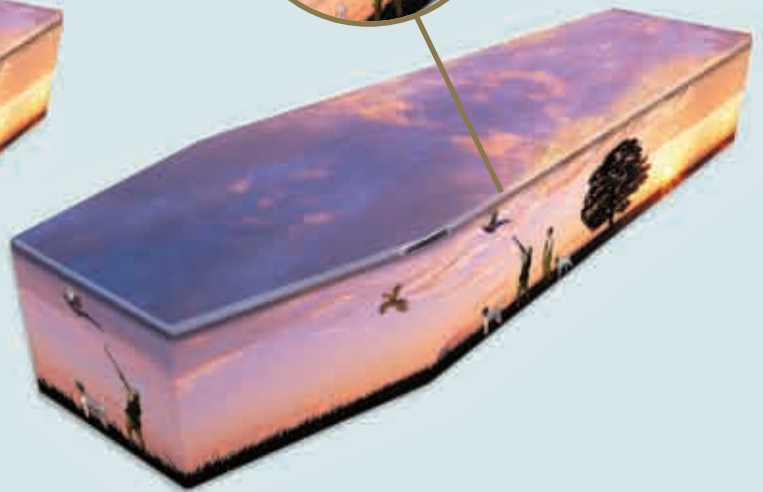

Choosing a template design still enables a family to personalise a coffin. This can be as simple as changing a background colour or adding some special words, or it may be changing the name and number on a football shirt, adding a much-loved tune to a musical design or incorporating some favourite flowers to a floral design.

Well it's been a while, but I wanted to add to my last testimonial. We interred mum's ashes last week and wanted to continue the colourful theme. I knew that it would be something wonderful (because Mum's coffin was so great) and I wasn't disappointed. The casket that you produced was absolutely the biz! Mum would have definitely have approved.

“ Well my dad wasn't a church goer. He was all about life and doing things, we saw a leaflet from you guys with pictures of Land Rover jeeps in the summer countryside. My dad loved these jeeps and had one himself . Then we thought wouldn't it be great if we could have a pic of dad in his jeep on the coffin. You kindly said yes and that opened the floodgate! We thought well if you can have one pic of him, why can't it be covered his pictures! And this led to my dad's beautiful coffin which left everyone open mouthed.

It was my dad to a T! He did it his way even from beyond the grave and went out in style, being led into a leafy open area by silver land rovers, his service was out in the open under the trees and with the sound of a cuckoo in the background. He left us again in the silver jeeps and everyone waved as the cars turned the corner and left to the sound of Frank Sinatra 'I did it my way'. It was utterly perfect and utterly him and his funeral became a treasured memory of joy not sadness doom and gloom. I love that it's inspired other people to let their loved one say goodbye while highlighting their best memories in colourful pictures.”
